Election/Restriction

1. New power of attorney and change of address filed 5/23/2005 entered in the system.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8, and 16-23 drawn to a method for protecting a vehicle system from a load dump classified in class 361, subclass 21.
 - II. Claims 9-15 drawn to an image projector for vehicle, classified in class 353, subclass 13.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method for protecting a vehicle system from a load dump. See MPEP 806.05(d).

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the fields of search are not co-extensive and separate examination would be required, restriction for examination purposes as indicated is proper.

3. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 FR 1.143).
